PO Box 793895

Leonard Sadjadi,

After consultation with our intellectual property attorney and independent electrical engineers, Micrin Technologies Corporation has decided that it is not in our best interests to contest the USPTO's decision to reject all claims on patent application 60/172,187 "Lighted Status Indicator Corresponding to the Positions of Circuit Breaker, Switch or Fuse."

We are hereby giving L.S. Unico formal notice of our intent not to further pursue this patent application. As we have indicated to you in previous conversations, the costs associated with pursuing an appeal of the USPTO's rejection are not in Micrin's financial best interests, based on our evaluation of the value of the technology in question. A letter from Bracewell & Patterson, LLE, acknowledging Micrin's decision not to appeal the USPTO office action is enclosed.

Micrin will cover all legal expenses up the date of this letter. If you desire to pursue an appeal of the USPTO's rejection of this patent, Micrin is prepared to execute a contract that assigns all rights to the patent application to LS Unico.

The final extension of time to respond to the USPTO's rejection runs through October 14, 2003 (no further extension beyond this date is possible). Micrin's IP attorney, James E. Bradley has indicated that, if you act expeditiously, there is time for a lawyer to draft an appeal and submit it before this deadline.

We wish you the best of luck with whatever decision you make regarding the patent application.

Sincerely,

Mark Henderson  
President & CEO  
Micrin Technologies Corporation

Patent Application on  
**Lighted Status Indicator Corresponding to the  
Positions of a Circuit Breaker, Switch, or Fuse**

Dear Mark:

Confirming our telephone conversation, we are closing this file by not responding to the office action mailed April 14, 2003. If you decide you want to respond to the office action, the final extension of time for a response is October 14, 2003.

Very truly yours,

Bracewell & Patterson, L.L.P.
